John McClintock

John McClintock is a native Texan, a graduate of Rice University in Mathematics. He ran his first successful computer program at Texas A&M. He began his career in Computer Science with Unisys, serving in a number of hardware/software engineering positions, with a focus on the boundary region between the two disciplines. John was named Unisys Fellow in 1990.

John joined Compaq, now HP, in 1997. He has managed several groups including the Corporate Server Software group, Platform Management, ProLiant Essentials, and OS Alliance Engineering groups. He is currently serving as director of the Global Engineering Services team, exploring leveraged engineering models.

The RVTA is nonprofit organization that is committed to promoting and supporting technology-oriented businesses and organizations throughout the 7-County Research Valley area. It was established in 1993 to provide a cohesive technological infrastructure as well as leveraging local resources to meet community needs. More information and a calendar of upcoming events can be found at www.bvta.org.
